- **Species:** Cumaru (*Dipteryx odorata*)
- **Dimensions:** 1-11/16" x 23-7/8" x 23-7/8"  
(2' x 2' spacing when aligned with adjoining tiles)
- **Color:** primarily tan, champagne tones
- **Hardness (Janka Ball):** 3,540 lbs
- **Fire Rating:** Class A (ASTM E108-07)
- **Weight:** approx. 25 lbs.
- **Weight per ft<sup>2</sup>:** approx. 6.5 lbs.
- Produced with corner slots for pedestal system hold-down
- Constructed with stainless steel screws
- FSC®-certified, Lacey Act compliant, sustainably harvested

The FSC® Cumaru 2×2' deck tile has a unique grain and a beautiful 'Champagne'-color. This wood is just as durable as other decking hardwoods, but has more variegated grain and mineral than other woods, adding to its interesting appearance. The wood for this deck tile is sourced from an FSC®-certified forest concession, which means that forest is selectively-harvested, and replanted to grow more trees instead of converted to another use. This is not only good for the environment, but the FSC®-certification can also be a great advantage for adding LEED points to meet high-standard Green Building Council standards.
