IPÊ 2'x2' RIBBED DECK TILE

- **Species:** Ipê (Tabebuia spp.)
- **Dimensions:** 1-11/16" x 23-7/8" x 23-7/8"
(2' x 2' spacing when aligned with adjoining tiles)
- **Color:** primarily brown tones
- **Hardness (Janka Ball):** 3,850 lbs
- **Fire Rating:** Class A (ASTM E108-07)
- **Weight:** approx. 25 lbs.
- **Weight per ft²:** approx. 6.5 lbs.
- Produced with corner slots for pedestal system hold-down
- Constructed with stainless steel screws
Lacey Act compliant, sustainably harvested

The ribbed Ipê 2'x2' deck tile is made exactly like the smooth version, but uses slats with a ribbed profile on the surface. This ribbed profile has gently rounded ridges that provide a cooler walking surface than the smooth-face tiles. They also catch the light differently for a more pronounced contrast when installed in a parquet pattern. Absolutely comfortable on bare feet, these are perfect for steps on or around a hot tub or pool area where you want extra grip.

The rich and warm brown color and varied grain of these Ipê deck tiles makes any plaza or deck a more inviting space. In addition, Ipê is one of the hardest woods in the world, and has abundant natural oil and mineral content, and because of this, it will outlast every other organic deck product.
