FSC® MASSARANDUBA 2'x4' RIBBED DECK TILE

- **Species:** Massaranduba (*Manilkara bidentata*)
- **Dimensions:** 1-1/2" x 23-7/8" x 47-7/8"
(2' x 4' spacing when aligned with adjoining tiles)
- **Color:** primarily reddish tones
- **Hardness (Janka Ball):** 3,190 lbs
- **Fire Rating:** Class A (ASTM E108-07)
- **Weight:** approx. 44 lbs.
- **Weight per ft²:** approx. 5.5 lbs.
- Produced with corner slots for pedestal system hold-down
- Constructed with stainless steel screws
- FSC®-certified, Lacey Act compliant, sustainably harvested

The FSC® Massaranduba ribbed 2' x 4' deck tile is made exactly like the smooth version, but uses slats with a ribbed profile on the surface. This ribbed profile has gently rounded ridges that provide a cooler walking surface than the smooth-face tiles. They also catch the light differently for a more pronounced contrast when installed in a parquet pattern. Absolutely comfortable on bare feet, these are also perfect for areas where extra grip is desired.

The wood has reddish tones which will fade in a few seasons to a silver patina (like other woods do), but the original color can be refreshed with pressure-washing to remove the depleted lignum cells on the surface to expose fresh wood. The wood is from an FSC®-certified forest concession, which means it is selectively-harvested, and replanted to grow more forest instead of converted to another use. This is not only good for the environment, but can also be a great advantage for adding LEED points to meet higher-standard Green Building Council standards.
